

AppICE KONY Release

Android SDK : 2.5.96-release

implementation 'appice.io.android:sdk:2.5.96-release'

This SDK supported this version :

implementation 'com.google.android.gms:play-services-location:21.0.1'

Need to add the below zip file for libkonysdkwrapper in settings.

Android Wrapper link to Download the file:

https://webcdn.appice.io/docs/libkonysdkwrapper_18JAN.zip

Changes are below for android :

- RML api fixes
- Android GIF push changes

Note: The SDK now manages RML, allowing the app team to safely remove any RML code from their side.
